# FIRST CLAIM AGAINST GREATCARE, MUN, DR. SHIN, DR. PAIK AND DR. KIM FOR VIOLATION OF 31 U.S.C. §§ 3729(a)(1)(A) and (B)

- 14. Plaintiffs incorporate by reference herein the allegations made above in paragraphs 1-13, inclusive.
- 15. As a Medicare approved Home Health Agency, GreatCare is entitled to receive payment from Medicare for medically necessary services provided to eligible homebound patients so long as the services provided by GreatCare and the claims submitted by GreatCare to Medicare comply with all applicable federal statutory and regulatory requirements for reimbursement.

COMPLAINT

- Medicare is a health insurance program for the aged and disabled under Title 16. XVIII of the Social Security Act that is solely funded by the federal government. Medicare pays for a limited set of home health care services and non-routine supplies under 60 day episode rates on a reasonable cost basis that includes intermittent skilled nursing care and physical therapy so long as a physician has determined that the Medicare beneficiary needs medical care at home according to the medical necessity and reasonableness requirements prescribed under the Medicare regulations and has developed a plan of care consistent with those requirements. The 60 day episode rates are established using a case-mix methodology that is adjusted based on the characteristics and diagnosis of the patient and his/her corresponding resource needs which are entered as data elements in the OASIS electronic data reporting system. The collection of accurate data elements for entry into the OASIS system is a condition of participation as a Medicare provider. The data elements of the case-mix adjustment methodology are organized into 17. three dimensions to capture clinical severity factors, functional severity factors, and service
- 17. The data elements of the case-mix adjustment methodology are organized into three dimensions to capture clinical severity factors, functional severity factors, and service utilization factors which are assigned score values which are then summed to determine the patient's case-mix group and the episode rate. The use of false or incorrect data elements will result in an incorrect determination of the patient's case-mix group and a false episode rate.
- In addition to participation in the OASIS system in order to get paid, home health providers must also obey federal laws and regulations which forbid the payment of unlawful kickbacks and patient referral fees. The Anti-Kickback Statute ("AKS"), 42 U.S.C. § 1320a-7b(b), prohibits, among other things, paying kickbacks to induce referrals for services paid under federal healthcare programs. The AKS arose out of Congressional concern that payoffs to those who can influence healthcare decisions corrupt professional healthcare decision-making and may result in federal funds being diverted to pay for goods or services that are medically unnecessary, of poor quality, or even harmful to a vulnerable patient population. The AKS prohibits payment of kickbacks in order to protect the integrity of the Medicare program from these difficult to detect harms. First enacted in 1972, the AKS was strengthened in 1977 and 1987 to ensure that

19. At all times relevant to this Complaint, the AKS has prohibited any person or entity from making or accepting payment to induce or reward any person for referring, recommending or arranging for federally-funded medical items and services, including items and services provided under the Medicare program.

In pertinent part, the statute states:

(b) Illegal remuneration

\* \* \*

- (2) whoever knowingly and willfully offers or pays any remuneration (including any kickback, bribe, or rebate) directly or indirectly, overtly or covertly, in cash or in kind to any person to induce such person-
- (A) to refer an individual to a person for the furnishing or arranging for the furnishing of any item or service for which payment may be made in whole or in part under a Federal health care program, or
- (B) to purchase, lease, order or arrange for or recommend purchasing, leasing or ordering any good, facility, service, or item for which payment may be made in whole or in part under a Federal health care program,

COMPLAINT

shall be guilty of a felony and upon conviction thereof, shall be fined not more than \$25,000 or imprisoned for not more than five years, or both.

42 U.S.C. § 1320a-7b(b)(2). Violation of the statute can also subject the perpetrator to exclusion from participation in federal health care programs and civil monetary penalties of up to \$50,000 per violation and up to three times the amount of remuneration paid. 42 U.S.C. § 1320a-7(b)(7); 42 U.S.C. § 1320a-7(a)(7).

- 20. In addition to the AKS, 42 U.S.C. § 1395nn (commonly known as the "Stark Statute" or "Stark II") prohibits home health services and certain other entities providing healthcare items and services from submitting Medicare claims for payment for items and services that are the product of patient referrals from physicians having an impermissible "financial arrangement" (as defined in the statute) with the home health service. The Stark Statute requires that the Medicare program deny payment for claims for any service billed in violation of its provisions. 42 U.S.C. § 1395nn(g). It requires that providers who have collected Medicare payments for a healthcare service "performed under a prohibited referral must refund all collected amounts on a timely basis." 42 C.F.R. § 411.353. The Stark Statute establishes the presumptive rule that providers may not bill and the Medicare program will not pay for designated health services (as defined in the statute) generated by a referral from a physician with whom the provider has a financial relationship. 42 U.S.C. §§ 1395nn(a)(1),(g)(1). The Statute was designed to protect the federal healthcare programs from paying for the costs of questionable utilization of services by removing monetary influences on referral decisions.
- 21. At all times relevant to this Complaint, the Stark Statute has applied to payments to referring physicians by Home Health Agencies and services and the resulting claims to the Medicare program. See 42 U.S.C. §§ 1395nn(h)(6)(I). In pertinent part, the Stark Statute provides:
  - (a) Prohibition of certain referrals

COMPLAINT

No.: R826

(1) In general

Except as provided in subsection (b) of this section, if a physician (or an immediate family member of such physician) has a financial relationship with an entity specified in paragraph (2), then-

- (A) the physician may not make a referral to the entity for the furnishing of designated health services for which payment otherwise may be made under this subchapter, and
- (B) the entity may not present or cause to be presented a claim under this subchapter or bill to any individual, third party payor, or other entity for designated health services furnished pursuant to a referral prohibited under subparagraph (A).

42 U.S.C. §§ 1395nn.

- 22. The Stark Statute broadly defines prohibited financial relationships to include any "compensation" (any "remuneration") paid directly or indirectly to a referring physician. 42
  U.S.C. § 1395nn(a)(2), with some statutory exceptions, none of which apply here.
- and federal laws and regulations, at all times herein alleged, the defendants' knew that the submission of claims for payment to Medicare or any federally sponsored health care program for services provided to any patient that has been referred by a physician with whom GreatCare had a financial relationship which did not fall under an exception to the Stark Statute and AKS was prohibited. Defendants also knew that the submission of a claim for reimbursement to Medicare constituted a representation of compliance with all applicable laws and regulations, including the Stark Statute and AKS. Yet, beginning in approximately February 2007, Kim is informed and COMPLAINT

believes and herein alleges that GreatCare and Mun, on behalf of GreatCare, provided, and caused others to provide, unlawful remuneration and kickbacks, in the form of cash, to several physicians, including Dr. Shin, Dr. Paik and Dr. Kim for patient referrals to GreatCare and submitted, and caused others to submit, to Medicare false or fraudulent claims for reimbursement and false records in support of such claims for the services GreatCare rendered to the home health care Medicare beneficiaries who had been referred to GreatCare by physicians, including Dr. Shin, Dr. Paik and Dr. Kim, who were receiving unlawful cash compensation and kickbacks from GreatCare and Mun in violation of the Stark Statute and the AKS. Additionally, GreatCare and Mun knew that the submission of claims for payment to Medicare or any federally sponsored health care program for services provided to any patient that had become a patient of GreatCare because of the payment of inducements and rewards by Mun and GreatCare to the patient was prohibited. Yet, beginning in approximately February 2007, Kim is informed and believes and herein alleges that GreatCare and Mun, on behalf of GreatCare, provided, and caused others to provide, unlawful inducements and rewards, in the form of cash, to patients of GreatCare to induce and reward such patients to become patients of GreatCare and submitted, and caused others to submit, to Medicare false or fraudulent claims for reimbursement and false records in support of such claims for the services GreatCare rendered to the home health care Medicare beneficiaries who received unlawful inducements and rewards from GreatCare and Mun in violation of the AKS.

24. By virtue of the false or fraudulent claims knowingly made, used, or caused to be made or used by the defendants and the false records or false statements knowingly made, used or caused to be made or used by the defendants to get such false claims paid or approved, the United States has suffered damages and therefore is entitled to statutory damages under the False Claims Act, to be determined at trial, plus a civil penalty for each violation.

- 25. Plaintiffs repeat and re-allege paragraphs 1 through 24 as if fully set forth herein.
- 26. Since approximately February 2007, the defendants have knowingly participated in a scheme designed to defraud Medicare by obtaining Medicare patients through the payment of unlawful kickbacks to patients and physicians and unlawful remuneration for referrals from physicians, falsifying diagnoses to justify extensive treatment plans to obtain higher reimbursements, preparing false physician orders and Plans of Treatment forms, charging for licensed physical therapists and skilled nursing services when the services were actually provided by unlicensed or unqualified personnel or otherwise not provided and entering false data elements into the OASIS system. In addition to the unlawful kickbacks and remuneration set forth in paragraphs 18-24, the defendants engaged in the following acts:
- Drs. Shin, Paik and Kim would refer patients to GreatCare on simple order A) forms that oftentimes did not include either a diagnosis or a determination that the patients were homebound sufficient to justify Medicare reimbursement for home health care. For example, in February of 2010, GreatCare provided home health care services to 62 patients, 33 of whom had been diagnosed on the original order form from the physician as suffering from simple dehydration, insufficient to justify Medicare payment for a 60 day episode. After receiving the original order forms from the physician, Mun discarded the original order forms and prepared substitute order forms for the physician's signature containing diagnoses that would justify Medicare reimbursement for a 60 day episode. In this way, only eight patients were left with a diagnosis of dehydration, instead of 33. GreatCare would also prepare Plan of Treatment forms (Form 485) containing more elaborate diagnoses than the diagnoses contained on the original order received from the physician and more extensive treatments than those listed on the original order. Mun personally delivered the Plan of Treatment forms to the physicians for their signatures, including Plan of Treatment forms for patients that Mun had directly solicited through the payment of direct kickbacks to the patients. She would also personally deliver the unlawful cash

COMPLAINT

remuneration to the physicians.

- B) Lucia routinely performed home visits in Mun, Helen and Jihae's name. The home health care visits were then billed to Medicare as skilled nursing care visits. Helen doesn't visit the patients at their homes but only comes to GreatCare's offices to sign papers, routes sheets and notes to make it appear as if she does. Jihae also prepares notes and other documents to falsely show that she performed skilled nursing care visits when the visits were instead performed by Lucia. Mun substituted the services of a masseuse in place of a licensed physical therapist which was then billed to Medicare as physical therapy.
- C) Sophia, Helen, Mun and Jihae entered false information about the condition of the patients and other false data elements into the OASIS system to justify Medicare reimbursement for 60 day episodes at higher case mix groups than the patients' conditions and needs warranted.
- 27. By virtue of the false or fraudulent claims knowingly made, used, or caused to be made or used by the defendants and the false records or false statements knowingly made, used or caused to be made or used by the defendants to get such false claims paid or approved, the United States has suffered damages and therefore is entitled to statutory damages under the False Claims Act, to be determined at trial, plus a civil penalty for each violation.
